### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 1, line 2 replace "each switch module" with --each of the switch modules-

-.

In claim 1, line 3 replace "each switch module" with --each of the switch modules-

-.

In claim 1, line 9 replace "each switch module" with --each of the switch modules-

-.

In claim 5, line 4 prior to "longitudinal" delete "the".

In claim 5, line 6 replace "the other" with --an other--.

In claim 8, line 2 replace "each respective base" with --each of the respective bases--.

In claim 24 replace "the latch" with --a latch--.

2. The following is an examiner's statement of reasons for allowance: The prior art does not teach or suggest a multiple position switch assembly including a four position switch subassembly formed by first and second switch modules, which each include a base and two control elements movably connected to the base and two switching

elements associated with each of the control elements. The prior art does not teach or suggest a switch module for a multiple position switch assembly comprising a base two control levers pivotally connected to the base; and two switching elements associated with the control levers wherein the control levers are arranged on the base next to one another in an antiparallel orientation with opposite directions of movement of an actuator subtend a specified angle with the longitudinal extension of the control levers. The prior art does not teach or suggest a switch module for a multiple position switch assembly including a base, two control elements axially movable on the base and having control bevels which actuate the switching elements upon the control elements being actuated by the actuator wherein the control elements are arranged on the base next to one another in an antiparallel orientation and the opposite directions of movement of the actuator subtend a specified angle with the longitudinal extensions of the control elements.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
